Current Projects with significant bicycle and pedestrian impacts

- Flashing Beacon Project – Project will install pedestrian flashing beacons at crosswalks located at the intersections of Orange Avenue/Tennis Drive and Miller Avenue/Cypress Avenue.
- Signal Coordination Project – Project will coordinate signals along Westborough Blvd from Junipero Sera Boulevard to Skyline Boulevard in order to improve traffic flow and improve safety for bicyclists and pedestrians.
- South San Francisco Regional Gap Closure Project – Project will install bike lanes and sharrows throughout the City.
- Grand Avenue/Magnolia Avenue Traffic Signal Project – Project will install a new traffic signal at the intersection to improve safety for pedestrians.
- Pedestrian Crossing Improvement at El Camino High School/BART Driveways – Project will install pedestrian improvements to improve the crossing for pedestrians.
- SSF Sharrow Program – Project will install sharrows throughout the City of South San Francisco.
- Los Cerritos School/West Orange Avenue Traffic Calming Project – Project will install traffic calming improvements along West Orange Avenue in front of Los Cerritos School and include educational components on pedestrian/bicycle safety for school children.
